@RichardGarriott I have a quick question about permissions, it involves your Language of Magic, found in the Book of Lore, and a game I am designing which was inspired by my love for #UltimaOnline. At the very least, I want to give credit where it is due.

I drew the logos words of power from Latin roots, you can borrow from my roots! Noting the connection would be nice.

I have borrowed the verbiage from the Book of Lore, with minor changes which I call "translations" as well and will cite my source. Your work has inspired so much, thank you!
